## 3. BASIS OF PREPARATION (Continued)

Income from operations for the interim period is not necessarily indicative of the results for the full year. Facility service revenue and certain directly related expenses are subject to seasonal fluctuations due to the timing of case scheduling, which can be impacted by the vacation schedules of surgeons, as well as the extent to which patients have remaining deductibles on their insurance coverage, based on the time of year. Occupancy related expenses, certain operating expenses, depreciation and amortization, and interest expense remain relatively steady throughout the year.

The Corporation's consolidated financial statements are reported in U.S. dollars which is its functional and presentation currency. All financial information presented in U.S. dollars has been rounded to the nearest thousand, unless otherwise indicated.

## 4. DISCONTINUED OPERATIONS

## 10. FINANCIAL INSTRUMENTS

### 10.1 Fair values and classification of financial instruments

The fair value of exchangeable interest liability is determined based on the closing trading price of common shares at each reporting date. The fair values of long-term debt approximate their carrying values as the interest rates are similar to prevailing market rates. The fair values of all other financial instruments of the Corporation approximate their carrying values due to the short-term nature of these instruments.

The following table presents the carrying values and classification of the Corporation's financial instruments as of March 31, 2026 and December 31, 2025:

	March 31, 2026	December 31, 2025

### 10.2 Measurement of fair values

The following are the valuation techniques used in measuring Level 2 fair values:

Financial Instrument	Valuation Technique
Exchangeable interest liability	<i>Market comparison technique:</i> The number of the Corporation's common shares to issue is based on the contractual agreements with the holders of non-controlling interest that have exchange agreements with the Corporation and take into account the distributions to the non-controlling interest over the prior twelve months. The liability is valued based on the market price of the Corporation's common shares converted to the reporting currency as of the reporting date.
Long-term debt	<i>Market comparison technique:</i> Interest rates are based on the lending agreements with various banks and creditors of long-term debt, and they are Prime or Secured Overnight Financing Rate ("SOFR") rates adjusted for the Facilities' risk rating, secured assets and other terms of agreements. The liability is valued based on debt principals and interest payments discounted to present value.

## 11. INCOME TAXES

The U.S. tax return for the Corporation is prepared on a consolidated basis for U.S. entities and includes balances and amounts attributable to these entities.

## 13. RELATED PARTY TRANSACTIONS

### 13.1 Other transactions

Certain Facilities routinely enter into transactions with related parties for the provision of services relating to the use of facility space and equipment. These parties are considered related as the Facilities have significant influence over these parties. Such transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Certain of the physicians, who indirectly own the non-controlling interest in each of the Facilities, routinely provide professional services directly to patients utilizing the services of the Facilities and reimburse the Facilities for the space and staff utilized. Also, certain of the physicians serve on the boards of management of the Facilities, and two such individuals perform the duties of Medical Director at their respective Facilities and are compensated in recognition of their contribution to the Facilities. Also, Dr. R. Blake Curd, a physician with a non-controlling interest in SFSH, is its Chief Executive Officer and the Chief Medical Officer of the Corporation.

SFSH has a 50% ownership share in an accountable care organization (“ACO”) through a wholly-owned subsidiary that also provides management services to the ACO. The ACO was approved for participation in the Medicare Shared Savings Program, which is an incentive program established under the provisions of the *Patient Protection and Affordable Care Act*. As one of the initiatives of the ACO, SFSH entered into an agreement with Great Plains Surgical, LLC (“Great Plains”), an entity controlled by certain indirect non-controlling owners of SFSH, for the provision of management services in relation to the orthopedic service line at SFSH to improve the quality of services provided and realize savings on implants and other supplies used in that service line. In addition to the payment of fees for providing management of the orthopedic service line, Great Plains is entitled to receive performance payments for realized cost savings and the attainment of quality levels.

The following is a summary of transactions at each Facility with their respective related parties during the three months ended March 31, 2026 and 2025:

Subsidiary	Nature of services or goods received	Three Months Ended March 31,	
		2026 \$	2025 \$

## 14. COMMITMENTS AND CONTINGENCIES

### 14.1 Commitments

In the normal course of operations, the Facilities lease certain equipment under non-cancellable long-term leases and enter into various commitments with third parties. In addition, certain Facilities lease their facility space from related and non-related parties.

### 14.2 Contingencies

In the normal course of business, the Facilities are, from time to time, subject to allegations that may result in litigation. Certain allegations may not be covered by the Facilities' commercial and liability insurance. The Facilities evaluate such allegations by conducting investigations to determine the validity of each potential claim. Based on the advice of legal counsel, management records an estimate of the amount of the ultimate expected loss for each of these matters. Events could occur that would cause the estimate of the ultimate loss to differ materially from the amounts recorded.

## 15. SHARE-BASED COMPENSATION

### 15.1 Stock options

The following table summarizes the number of outstanding stock options as of March 31, 2026:

Optionee	Number of Options Held	Number of Options Vested	Exercise Price	Grant Date
Former Chief Executive Officer	223,562	223,562	C\$17.24	May 1, 2016
Former Chief Financial Officer	221,344	221,344	C\$17.98	November 21, 2016
<b>Total number of outstanding options</b>	<b>444,906</b>	<b>444,906</b>		

Outstanding options (the "Options") vest after five years of employment. The Options must be exercised by the tenth anniversary of the respective grant dates, subject to blackout exceptions. As of March 31, 2026, all of the Options are vested and exercisable.

There was no movement in the outstanding number of stock options for the three months ended March 31, 2026 and 2025, and the Corporation did not recognize any expense relating to the Options during these periods.

On May 1, 2026, subsequent to the quarter end, the 223,562 Options held by the Former Chief Executive Officer expired and were forfeited.

The grant date fair values of the Options were measured based on the Black-Scholes model. Expected volatility is estimated by considering historic average share price volatility.

## 15. SHARE-BASED COMPENSATION (Continued)

### 15.2 Deferred share units

Compensation for directors includes a deferred share unit (“DSU”) component, for which grants based on the value of the Corporation’s common shares were issued quarterly until the end of the second quarter of 2024, when they were replaced by a restricted share unit (“RSU”) component, after which no additional DSUs were issued. The outstanding DSUs vested immediately upon issue, continue to accrue dividends, and can only be redeemed when a participant ceases to serve as a director of the Corporation. The participants’ entitlement in respect of the DSUs then held will be settled in cash based on a formula tied to the value of the Corporation’s common shares at the time of redemption.

For the three months ended March 31, 2026, the change in market value of outstanding DSUs was an expense of \$46 (March 31, 2025: \$117). As of March 31, 2026, accrued liabilities in the interim condensed consolidated balance sheet included a liability for DSUs of \$818 (December 31, 2025: \$772).

The following table summarizes changes in the number of DSUs for the three months ended March 31:

<b>Total number of DSUs at March 31</b>	<b>68,987</b>	<b>67,388</b>

### 15.3 Performance share unit plan

Until 2024, annual grants of share units (“SUs”) in the form of deferred share units (“Executive DSUs”) were awarded under the Corporation’s Amended Performance Share Unit Plan (“Amended PSU Plan”) but were then replaced by RSUs, after which no additional SU grants were issued. Awards under the Amended PSU Plan vest three years following their grant date and are subject to achievement of performance objectives set at the time of the grant. The Executive DSUs participate in the Corporation’s quarterly dividend and are settled in cash upon the Amended PSU Plan participants’ departure from the Corporation.

#### 15.3.1 Share units

SU grants were issued annually, each March 31st, from 2020 to 2024, with a final grant on March 28, 2024 for 81,106 Executive DSUs. The value of the expense and liability associated with the outstanding SUs is determined based on the Corporation’s share price at the end of each reporting period.

For the three months ended March 31, 2026, operating expenses included an SU expense of \$441 (March 31, 2025: \$213). As of March 31, 2026, accrued liabilities in the interim condensed consolidated balance sheet included a liability for SUs of \$3,304 (December 31, 2025: \$2,878).

On June 26, 2025, 30,473 RSUs which vest over one year were granted to directors, and 75,995 RSUs which vest over three years were granted to executives and other employees of the Corporation. These RSUs were awarded under the Corporation's Amended and Restated RSU Plan. The value of the expense and liability associated with the RSUs is determined based on the Corporation's share price at the end of each reporting period.

### 16.1 New and revised IFRS Accounting Standards not yet adopted

The new and revised IFRS Accounting Standards not yet adopted, as detailed in Note 21.24 to the annual financial statements, also apply to these consolidated financial statements. The Corporation continues to assess the impact of the adoption of these new and revised IFRS Accounting Standards on the consolidated financial statements in future periods. There are no other new and revised IFRS Accounting Standards that have been issued but not yet adopted that would be expected to have a material impact on the Corporation.
